Also available in petrol

Features

- Patented safety features bring a new level of safety to refueling your tools and vehicles.
- Trigger system allows precise dispensing of the required amount of fuel.
- Large range of motion for the pouring spout reduces the risk of awkward pouring angles.
- Venting system eliminates gugging and sloshing of fuel.
- Flammable fuel vapors are directed away from the pouring spout, reducing the risk of ignition.
- Type II safety can design means no leaking of vapors into the environment.
- Meets most certification requirements, including ASNZS 2906-2001, D.O.T, OSHA, UN & CARB.
