# STAY CONNECTED ANYWHERE

**No matter what industry, location or size of your business staying connected is key to any safe and efficient operations.**

Whether you are in the mine, construction, or agriculture, Blackwoods have two-way radio solutions adapt to your needs. Regardless you are in the warehouse, logistics or in manufacturing environment using the two-way radios are a great tool to send and receive important information between two individuals or groups of people. Having the hand-held or fixed in place of a vehicle, two-way radios are the way to go especially for security and emergency disaster situation.

- For over 60 years GME has been an industry leader in the RF communication technology space. GME remains a family-owned private company and is proudly 100% Australian. The only Australian manufacturer of UHF CB Radios and Emergency Beacon products.

- Icom, started in 1954 Japan, is a global leader in the communications industry that pride themselves on their products that are renowned for their high quality, innovation, reliability and design. Icom has an extensive range of products that are designed to withstand the most rugged and extreme conditions and include base- station, mobile and handheld units covering many frequency bands.

- Founded in the UK in 2002, Sepura design and manufacture their reliable range of radio systems. The company has expanded rapidly across the world with a network of regional partners that provide local support for their market-leading products. In a short space of time, Sepura has achieved the status of market leader in over 30 countries.

- Uniden, since its establishment in 1966 in Japan, has grown to be a global leader in wireless communications and a major global brand in consumer electronics. With over two million wireless products produced every month, the company has developed to be a world leader in production efficiency and zero defects so that we can offer the best products possible.
